

JERRY HENDREY

CAREENING COVE BOAT BROKERAGE & SLIPWAY

THE FACTS ABOUT JERRY HENDREY

Welcome to Careening Cove, your one stop for servicing the boat you currently own, or for finding one you'd be proud to own. Located in a sheltered deep water bay at Milsons Point in Sydney Harbour, Careening Cove Boat Brokerage and Slipway brings a unique level of professionalism to the marine industry. For repairs, refits or a new boat, Careening Cove can bring the pleasure back into boating.

A RICH HERITAGE

Jerry Hendrey is the brains behind our operation with a career spanning over 40 years. Today, our team will handle your vessel with the utmost care and can provide an excellent level of workmanship to your craft.

OUR CRADLES WILL SUPPORT YOUR BABY

We have 3 cradles with the capacity to support your craft and suit your budget. The largest is No 1 cradle that can handle vessels up to 84 feet (25.6 m.) up to 28 foot beam and 80 tonnes.

Cradle 2 can take craft up to 50 feet (15 metres) and 15'6" beam, while Cradle 3 is suited to sail and power boats up to 30 feet (9 metres). With pricing by the day, it means those smaller quick repairs can be completed on time and on budget.

Need a slip for your survey inspection? Antifouling or hull work? Talk to us about a booking and we're sure to slip you in.

No 1 Cradle - \$12 +gst per foot, per day
No 2 & Cradles - \$8 +gst per foot, per day

Services

QUALITY CRAFTSMANSHIP FOR ALL CRAFT

The Careening Cove team includes skilled trades people with years of proven industry experience. We can handle everything from insurance work and minor repairs through to major refurbishments.

We earned a quite name for ourselves in the care of timber boats. Our qualified shipwright has extensive track record in dry rot and timber repairs. When it comes to joinery and refitting, you can count on the impeccable craftsmanship of our qualified cabinet-maker for interior fitments and teak decks.

THE START OF A GREAT FINISH

For a gleaming paint coat, our qualified spray painter is a specialist in 2-pack polyurethane applications, as well as enamelling and varnish work. Our coatings services cover hull cleaning and antifouling removal, fibreglass repairs all the way to applying new antifouling and top coats. What about a new cover, clears, a bimini or a canopy? Let us restore the finish that Mother Nature has taken away. To preserve that immaculate finish and impress friends or corporate guests, let us handle the detailing.

GET THINGS WORKING AGAIN

Need mechanical help? You can also count on us for rigging work and motor repairs on diesel and petrol, inboards and outboards. For electrical fitments and repairs, we have a qualified electrician. Also on hand is a welder skilled in aluminium and steel repair work.
